

Effects of Capacity Building on the Adoption of IPv6

Marco Hogewoning, CS

RIPE NCC

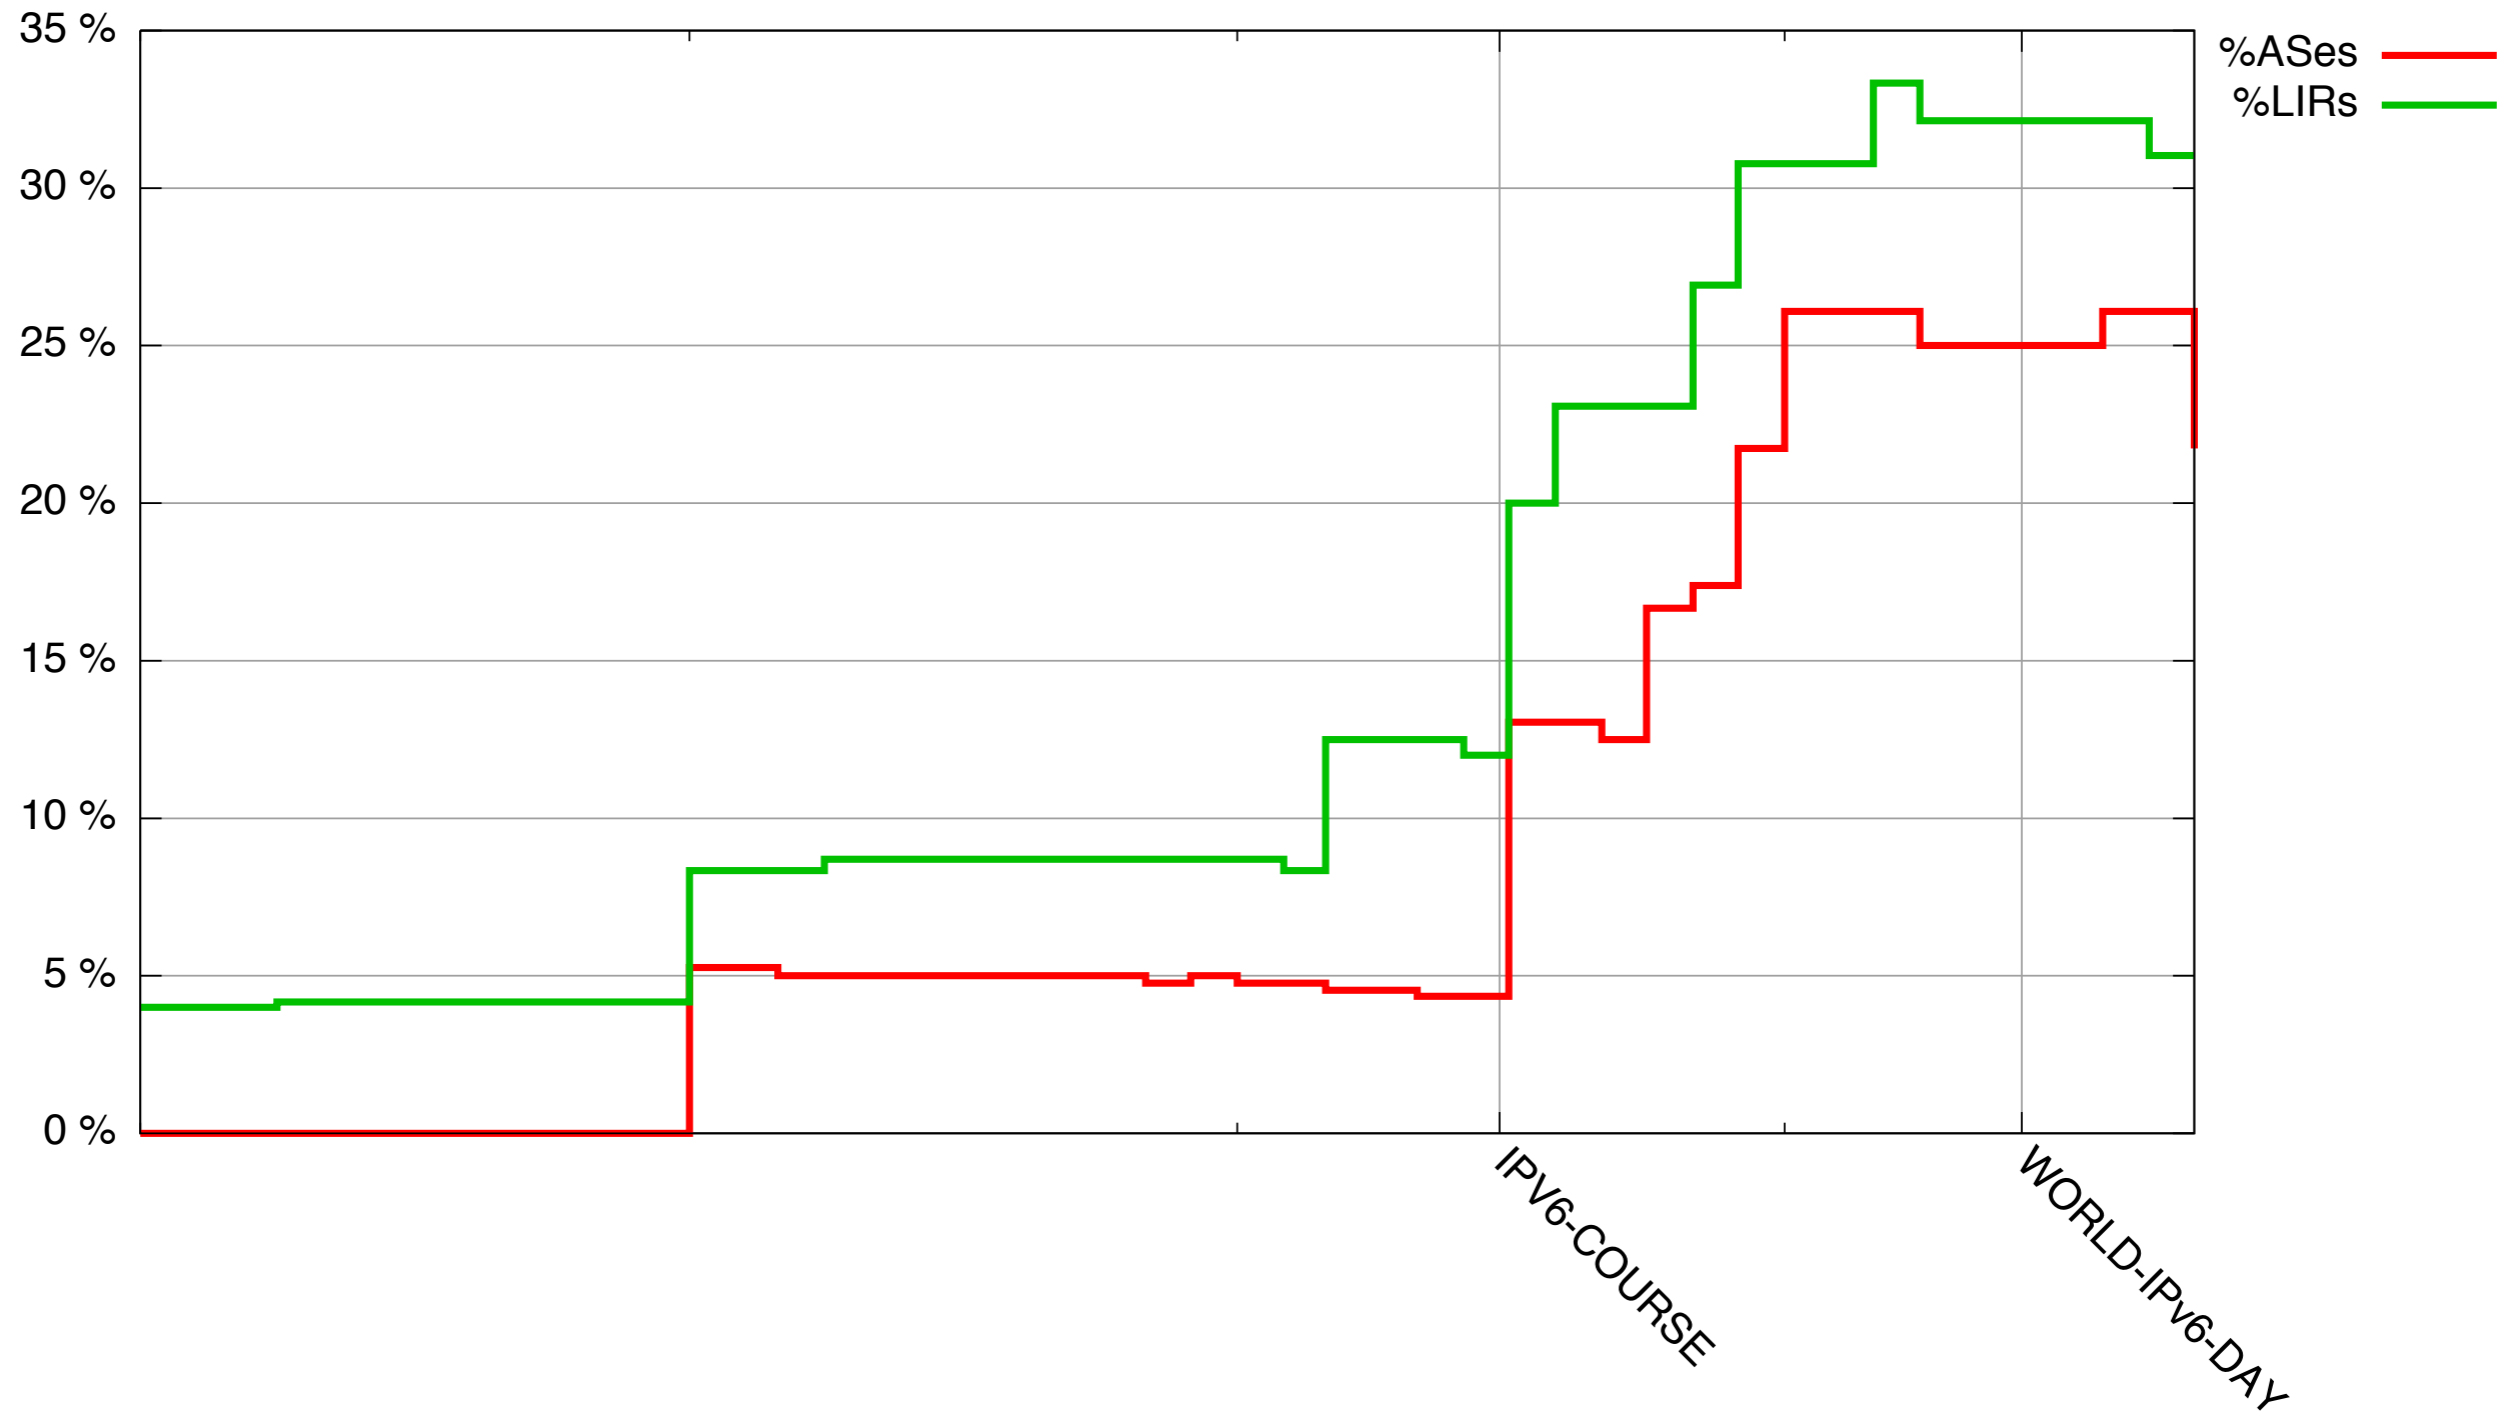

What Did We Do?

- Take some statistics on IPv6 Deployment:
 - Number of members that have an IPv6 Allocation
 - Networks (ASNs) advertising IPv6 address blocks
- Split them per country and plot them over time as a percentage
- Plot in what we think are significant events:
 - RIPE NCC IPv6 for LIRs training course
 - MENOG IPv6 Roadshow
 - Meetings

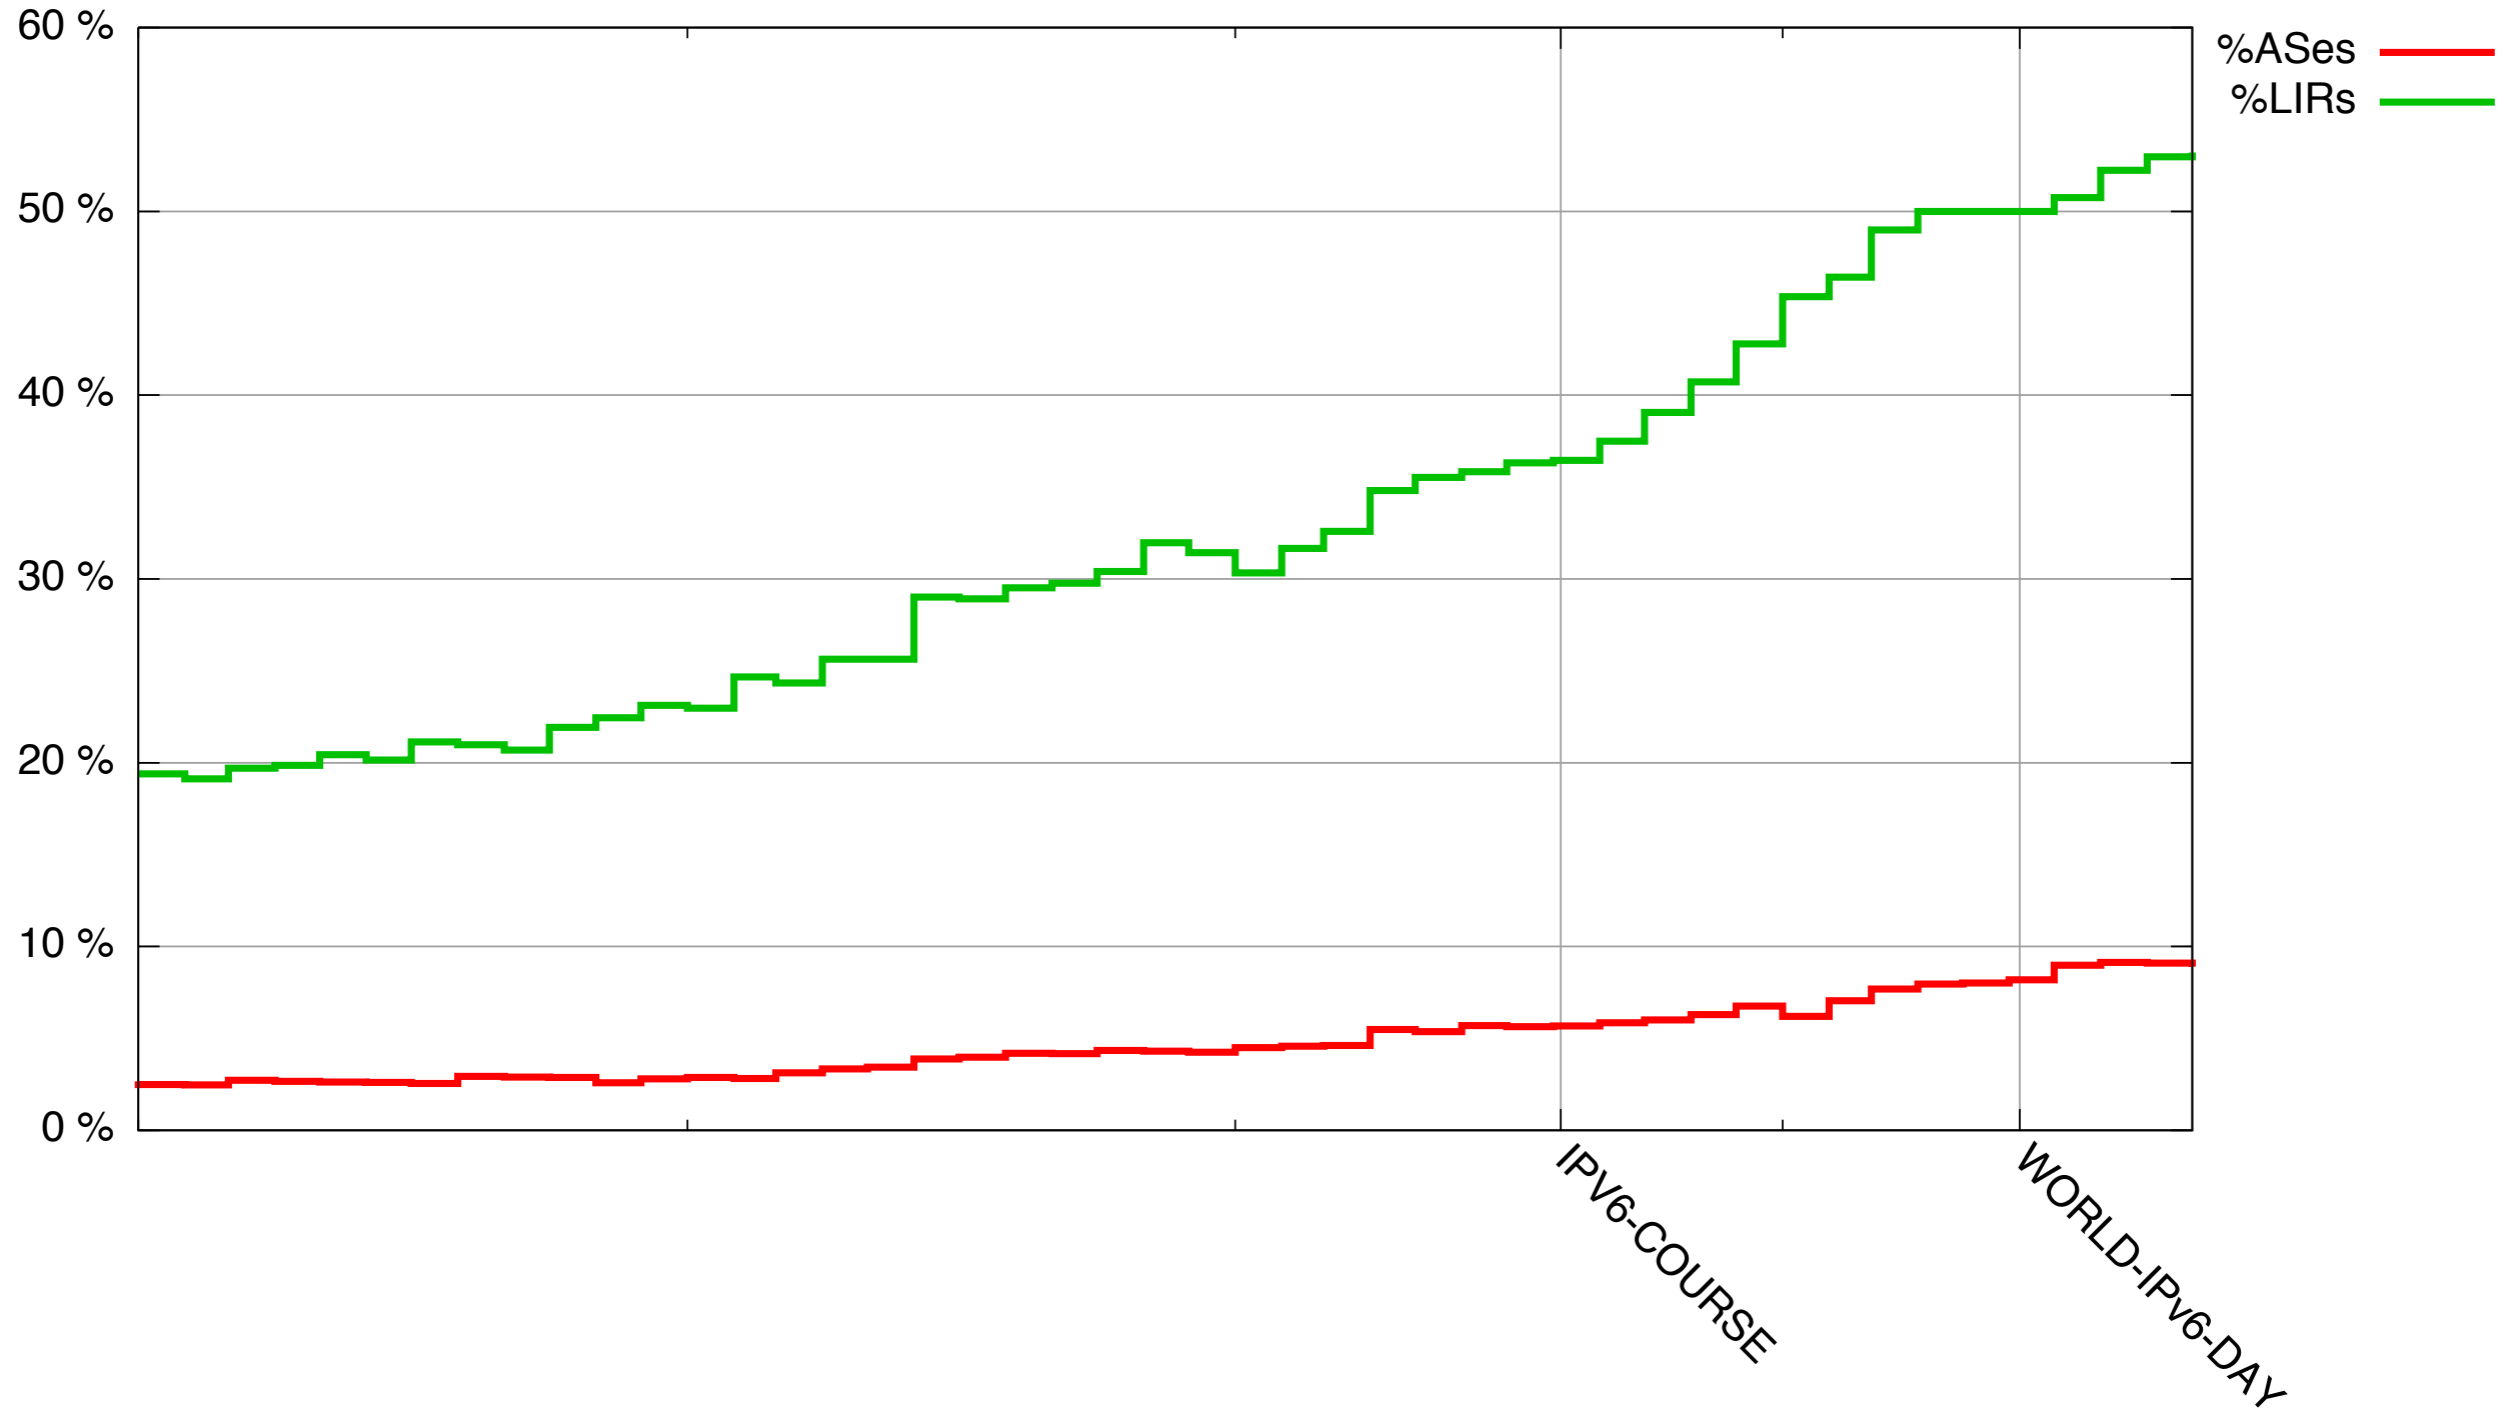

Bosnia and Herzegovina

IPv6 deployment indicators (2008-now) in country: BA (29 LIRs)

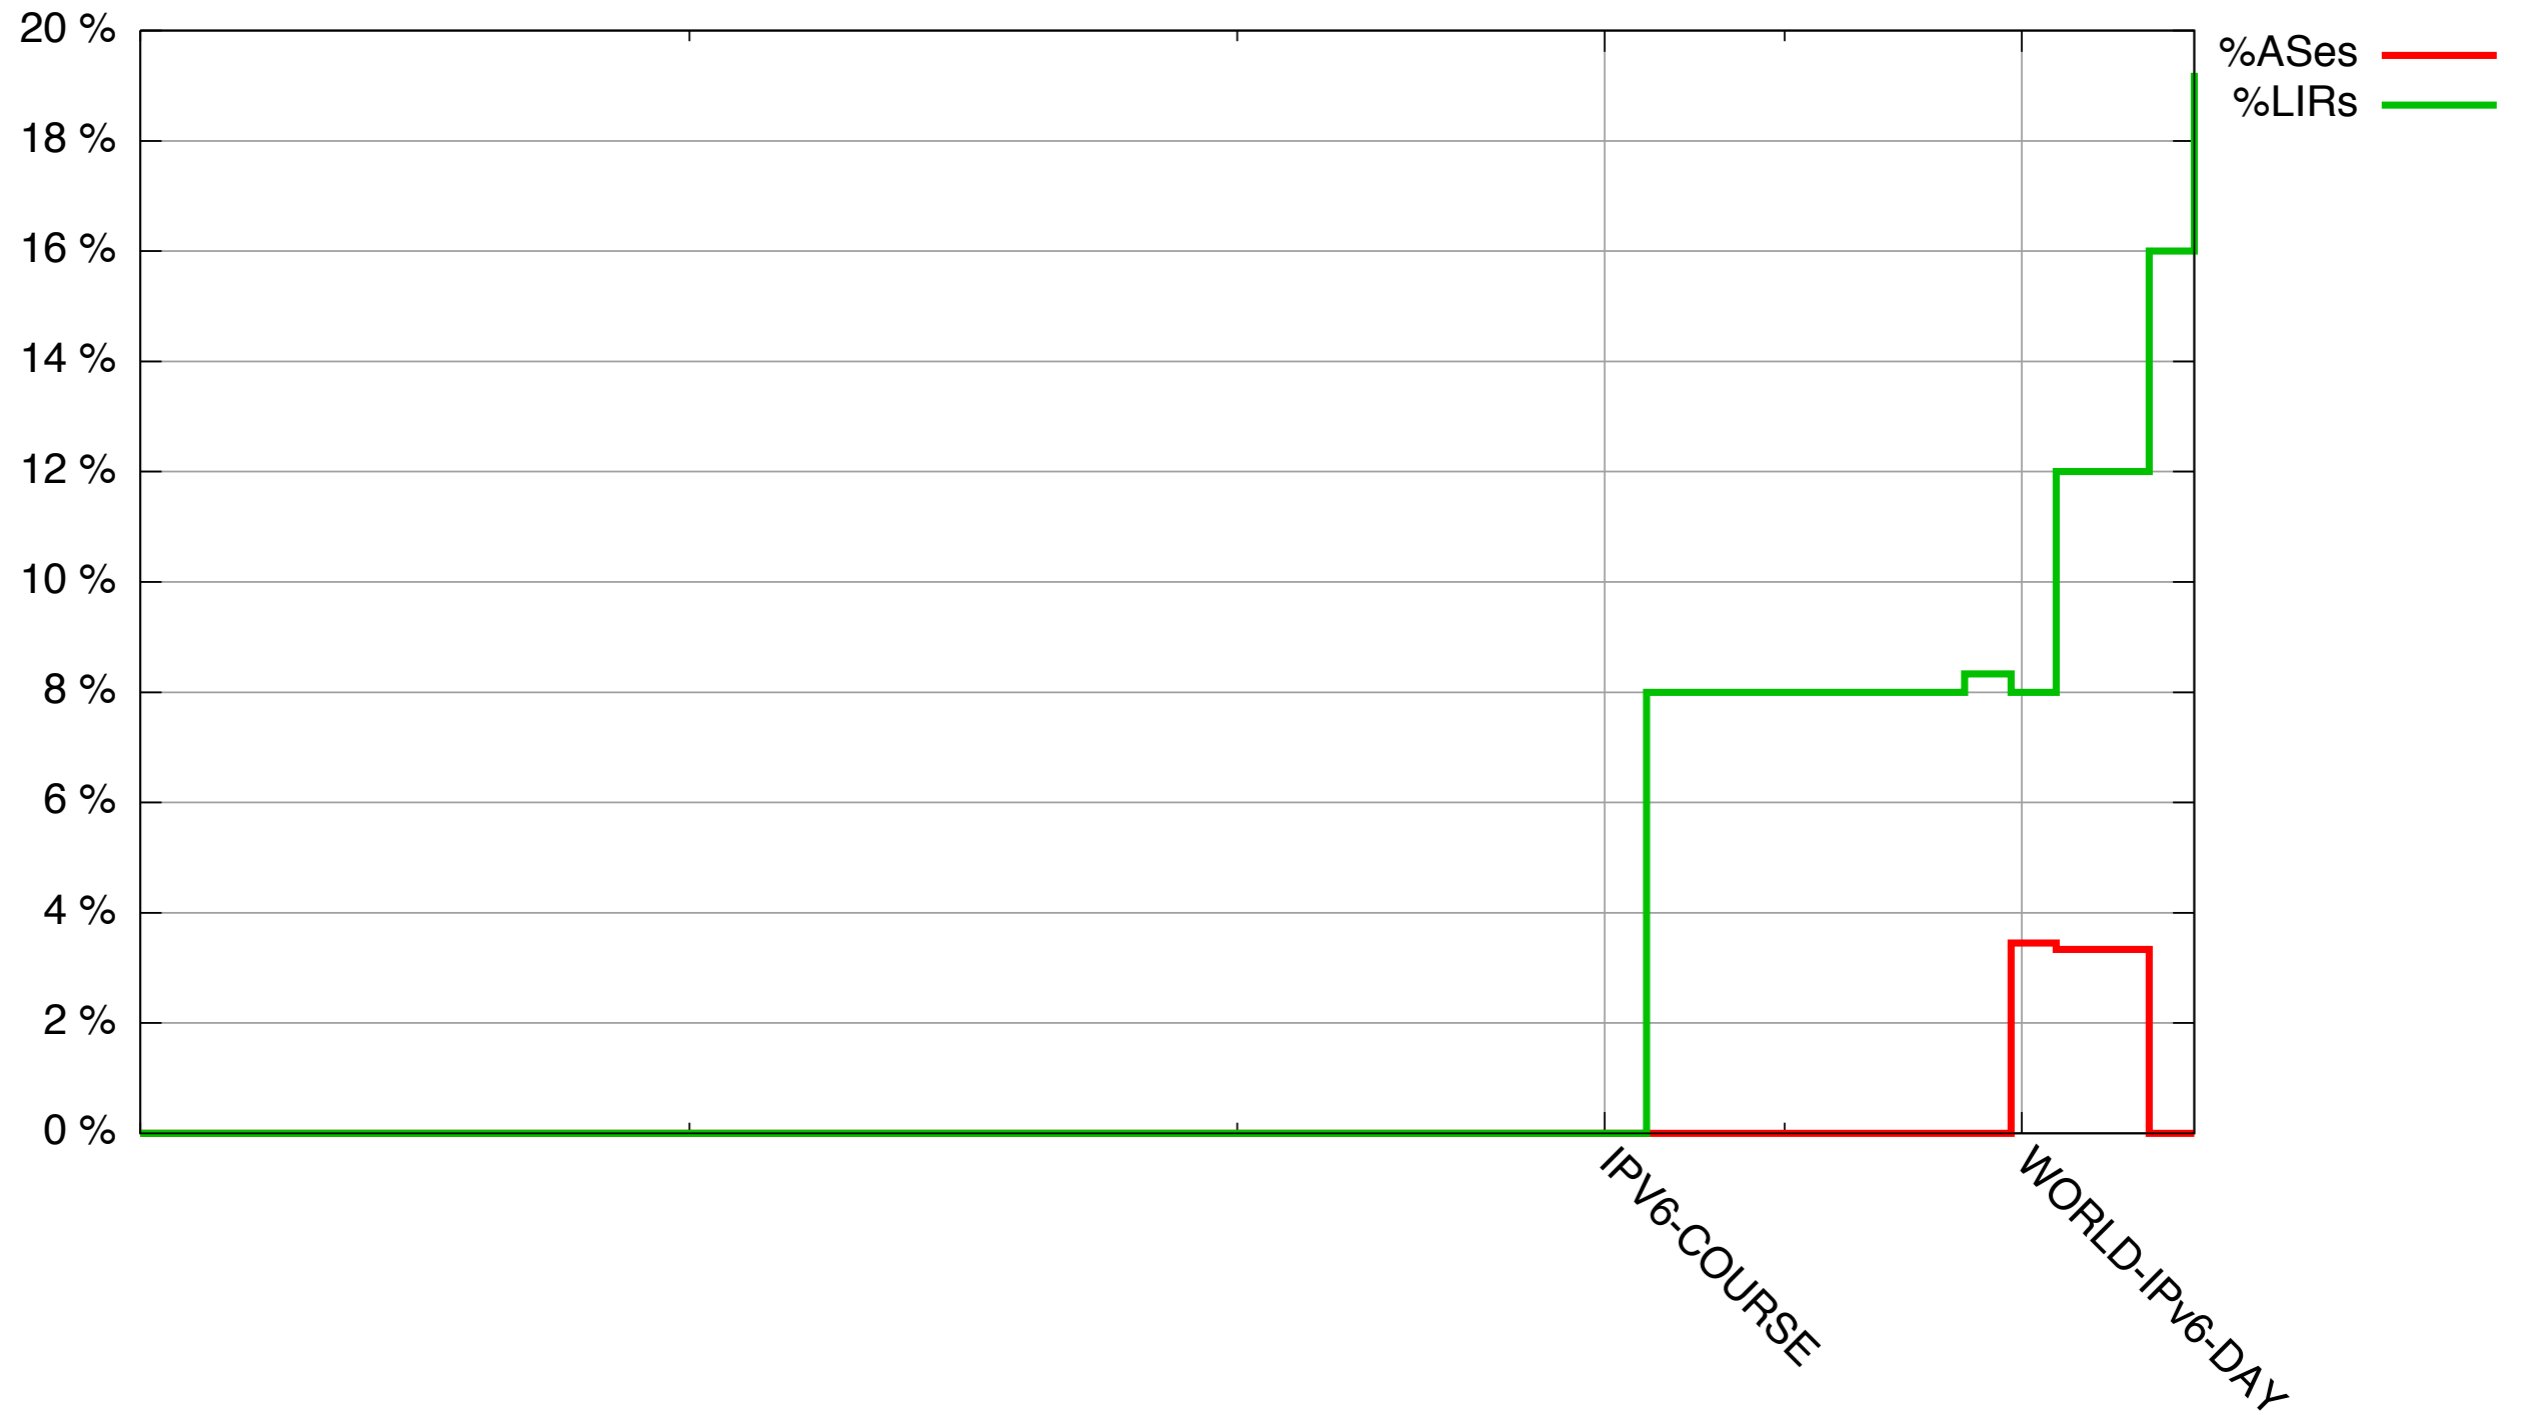

Poland

IPv6 deployment indicators (2008-now) in country: PL (203 LIRs)

Georgia

IPv6 deployment indicators (2008-now) in country: GE (26 LIRs)
